*Dear friends,*

A helping hand, a kindly smile – despite the challenges brought by the pandemic, many Singaporeans young and old, continue to step forward to help the community.

More than 90 partners and over 1,000 volunteers rallied to bring cheer and comfort to low-income families and vulnerable seniors in our annual Festive Cheers @ South West programme. During Chinese New Year, the CDC partnered with Sage Counselling Centre to distribute ‘fortune bags’ containing festive snacks to 2,000 families in Boon Lay to uplift our residents’ spirits. We also worked with the Singapore University of Social Sciences (SUSS) to organise a special Chingay watch party for 300 seniors from nursing homes and senior daycare centres. The strong support of our partners goes a long way in strengthening our social fabric and ensuring that no one gets left behind.

The CDC has been encouraging young residents to play an active role in serving the community and caring for our environment through various programmes and partnerships. Our collaboration with Nanyang Technological University (NTU) during its Service Week saw students initiating telehealth services for older residents in Bukit Gombak and providing socio-emotional support to seniors from NTUC Health Senior Activity Centre (Taman Jurong). In addition, through our joint initiative with SUSS in the SUSS Impact Startup Challenge, we equipped youth with resources to develop innovative solutions that addressed the needs of the seniors.

Meanwhile, we continue to nurture an eco-conscious green generation with programmes like My Preschool Shines @ South West and Green Schools @ South West. Many preschools and primary and secondary schools actively participated in these programmes which encouraged students to embrace sustainable habits and lifestyles.

We’ve come a long way together in our fight against the pandemic. Let’s keep rallying behind each other – and move closer to the finishing line.

*Rakan-rakan yang dihormati,*

Tangan yang menghulurkan bantuan, senyuman prihatin – meskipun menghadapi cabaran akibat pandemik, ramai rakyat Singapura daripada golongan tua dan muda, terus tampil kehadapan untuk sama-sama membantu masyarakat.

Lebih daripada 90 rakan kerjasama serta 1,000 sukarelawan telah berganding bahu untuk membawakan keceriaan dan keselesaan kepada keluarga berpendapatan rendah dan warga emas yang memerlukan dalam program Festive Cheers @ South West tahunan kami. Semasa Tahun Baru Cina, CDC telah bekerjasama dengan Pusat Kaunseling Sage untuk mengedarkan ‘bungkusan tuah’ yang mengandungi hadiah perayaan berupa makanan ringan kepada 2,000 keluarga di Boon Lay untuk membangkitkan semangat penduduk kita. Kami juga bekerjasama dengan Universiti Sains Sosial Singapura (SUSS) untuk menganjurkan pesta khas menonton Chingay bagi 300 orang warga emas dari rumah rawatan dan pusat jagaan warga emas. Sokongan padu rakan kerjasama kami berjaya mengerat and mengukuhkan fabrik sosial kita dan memastikan tiada sesiapa yang ketinggalan.

CDC sentiasa menggalakkan para penduduk daripada golongan muda untuk memainkan peranan aktif dalam berkhidmat kepada masyarakat dan menjaga alam sekitar kita melalui pelbagai program dan rakan kerjasama. Kerjasama kami dengan Universiti Teknologi Nanyang (NTU) semasa Minggu Perkhidmatannya menyaksikan para pelajar memulakan khidmat tele-kesihatan untuk penduduk lanjut usia di Bukit Gombak dan juga memberikan sokongan sosio-emosi kepada warga emas dari Pusat Kegiatan Kesihatan Warga Emas NTUC (Taman Jurong). Di samping itu, melalui inisiatif bersama kami dengan SUSS, SUSS Impact Startup Challenge, kami melengkapkan para belia dengan sumber-sumber untuk membangunkan penyelesaian inovatif yang memenuhi keperluan warga emas.

Sementara itu, kami terus memupuk generasi hijau yang prihatin terhadap alam sekitar dengan program seperti My Preschool Shines dan Green Schools @ South West. Banyak prasekolah serta sekolah-sekolah rendah dan menengah mengambil bahagian secara aktif dalam program-program ini yang menggalakkan para pelajar agar mengamalkan tabiat dan gaya hidup yang mampan.

Kita telah bersama-sama gigih dan melangkah jauh dalam memerangi wabak ini. Ayuh kita terus bersatu menyokong satu sama lain – dan melangkah lebih dekat ke garisan penamat.

*亲爱的朋友们，*

尽管冠病疫情为我们带来了种种挑战，但许多国人都挺身而出，继续伸出援手，绽放温暖的微笑，帮助有需要的居民。

超过90个合作伙伴与1,000名义工参与了我们一年一度的“欢庆佳节在西南” (Festive Cheers @ South West) 活动，为低收入家庭和弱勢乐龄人士送上欢笑与物资。在农历新年期间，社区发展理事会与乐龄辅导中心(Sage Counselling Centre) 联手，为文礼的2,000个家庭派发“福袋”，为居民送暖，让他们感受佳节气氛。我们也与新跃社科大学合作，为来自养老院和乐龄日间护理中心的300名乐龄人士举办了一场特别的妆艺大游行观赏活动。合作伙伴给予我们的大力支持，让社会各个阶层之间的联系更加紧密。

社理会一直通过不同的计划与伙伴关系，鼓励年轻居民积极服务社区并关爱环境。我们与南洋理工大学合作，在该校的义工服务周期间，召集学生为武吉甘柏区的年长居民提供远程医疗服务，也为达曼裕廊职总保健合作社乐龄活动中心的乐龄人士给予社交和情感支持。此外，我们也通过与新科大联办的“新跃社科大学影响力创业挑战赛” (SUSS Impact Startup Challenge), 向年轻学生们提供资源，以开发创新的解决方案，来满足乐龄人士的需求。

与此同时，我们也继续通过“西南闪亮学前计划” (MyPreschoolShines @ South West)和“绿色校园在西南” (Green Schools @ South West) 等计划，培育具有生态环保意识的绿色一代。我们西南区的许多幼儿园和中小学也积极参与了这些能够鼓励学生养成可持续的良好习惯与生活方式的计划。

我们已在与疫情的抗争中取得了良好的进展。让我们继续团结一致，携手继续走向终点线。

Volunteers from LIAS delivering gifts to seniors from REACH Senior Centre @ Bukit Gombak Vista.

Front row from left: Mr Koh Kong Wen, PBM, Contracts Manager, Koh Kock Leong Enterprise Pte Ltd; Mayor Low; Minister for National Development and Adviser to Boon Lay GROs Mr Desmond Lee; Mr Tim Koh, Chairman of SAGE Counselling Centre; and Mr William Roth, Executive Director, Major Gifts, University Advancement Office distributed 'fortune bags' and care packs to vulnerable residents in Boon Lay with staff and volunteers from SAGECC, South West CDC, Boon Lay GROs and NTU.

## >> PRESENTS THAT MATTER

Three residents from the South West District shared about the gifts they received through Grant-A-Wish @ South West:

"I love to cook herbal soups as they help me stay healthy. It was hard to brew it on the stove, so this **slow cooker** will be very helpful. Thank you!"

Mdm Yuen How Chun, 84

"My wife enjoys making stir-fries, so she really wanted a new **wok-pan**. The best part is that this one comes with a spatula."

Mr Lim Ah Tee, 74

"As I wear dentures which makes it difficult to bite harder fruits like apples, I wished for a **juicer** so I can blend my fruits with water. This is important to me as I eat plenty of fruits to take care of my health and aid digestion."

Mdm Neh Kwee Lan, 69

The three residents were among the 550 seniors who benefitted from Grant-A-Wish @ South West.

From left: Mr Koh Kong Wen, PBM, Mr Tim Koh, Mayor Low, Mr William Roth, Minister Desmond Lee and resident Ms Desy Nurazura Binte Daren Setria at her doorstep.

Mr Yong Teck Fok receiving the South West Festive Cheers Pack and 'fortune bag' from Minister Desmond Lee, Mayor Low, Mr Koh and Mr Roth.

SITTING IN THE CORNER OF MDM POH SWEE WAH'S **BUKIT GOMBAK LIVING ROOM IS HER TRUSTY FAN.** "I brought it from my old place in Telok Blangah to this house," she recalled. But after years of use, it now wobbles and cannot stand straight, making it difficult to operate. That is why the 68-year-old retiree chose a standing fan when she was asked to pick a gift. "It's an essential that I can't afford," she said.

Mdm Poh was among the 150 residents from REACH Senior Centre @ Bukit Gombak Vista, Yuhua Senior Activity Centre (SAC), NTUC Health SAC @ Boon Lay, PPH Community Service Centre and Lions Befrienders (420 Clementi) SAC who received gifts under Grant-A-Wish with LIAS (Landscape Industry Association of Singapore) @ South West. Part of the annual Festive Cheers @ South West, this initiative met the varied needs of seniors by allowing them to pick items worth up to \$100 from three categories: health and mobility aids, home essentials and appliances, and food hamper and tonic products. "I could ask for anything that I needed and that really cheered me up," shared Mdm Poh, who lives alone.

The gifts were sponsored by members of LIAS and were distributed at REACH Senior Centre @ Bukit Gombak Vista on 6 March 2022 by Minister for Trade and Industry and Adviser to Chua Chu Kang GRC Grassroots Organisations (GROs) (Chua Chu Kang) Mr Gan Kim Yong, Mayor of South West District Ms Low Yen Ling and LIAS representatives.

The residents also received South West Festive Cheers Packs sponsored by long-time corporate partner Koh Kock Leong Enterprise Pte Ltd. These packs, worth \$25 each, were customised to meet the needs of residents in different divisions. For example, some packs contained rice and biscuits in place of instant food and beverage items. The packs also included handmade cards by ground-up initiative Project Wellness, with well-wishes written by the preschoolers of PCF Sparkletots Bukit Batok Blocks 205 and 293.

Minister Gan welcomed such initiatives as they can positively impact seniors. "As many of them have lesser social interactions due to the impact of the COVID-19, initiatives like these go a long way to give care and strength to the seniors as we tide through the pandemic together."

## UPLIFTING LIVES TOGETHER

This is the second time LIAS has collaborated with the South West Community Development Council (CDC) for Festive Cheers @ South West. Mr Martin Toh, Committee Member, LIAS, shared that response from its members has been great despite restrictions imposed by the pandemic. "Many have stepped forth to contribute to this initiative, both monetarily and physically," he said. "I hope this gesture helps to bring some joy and uplift the lives of less-privileged seniors."

Ms Jaqueline Allan, Executive Director of Nature Landscapes and the Honorary Secretary of LIAS, said, "It is very meaningful to be able to donate things that beneficiaries want but will think 10 times about buying because of the cost. Seeing their smiles and enthusiasm makes our efforts worth it." In all, 13 companies from LIAS contributed some \$10,000 worth of gifts and their time to pack and distribute them.

Another partner SAGE Counselling Centre (SAGECC) presented 'fortune bags' containing daily essentials, festive snacks and health products to 2,000 low-income families living in Boon Lay Drive, Hong Kah North and Bukit Gombak.

The contents of the 'fortune bag' were sponsored by individuals and corporate sponsors including Neo Group Limited, Heng Foh Tong Medical Hall and UberGARD while the bags were distributed by

staff and volunteers from SAGECC, South West CDC, Boon Lay GROs and Nanyang Technological University (NTU)'s University Advancement Office. Ms Berlinda Tan, 34, an Assistant Senior Counsellor at SAGECC, said, "We want to bring some warmth to their lives, so that they don't feel so alone because of restrictions imposed during the pandemic."

Mr Yong Teck Fok, who uses a wheelchair to get around, was happy to receive the 'fortune bag'. "I usually eat out, and the pack has snacks like biscuits and coffee that I can enjoy at home," said the 68-year-old Boon Lay Drive resident.

Mayor Low said, "Our low-income families have been affected more, and every form of contribution matters and will go a long way towards strengthening our social fabric and ensuring no one gets left behind." **B**

# My environment, my responsibility

35 SCHOOLS WERE RECOGNISED FOR THEIR ACTIVE PARTICIPATION IN GREEN SCHOOLS @ SOUTH WEST.

**LEARNING TO BE RESPONSIBLE FOR OUR ENVIRONMENT STARTS FROM YOUNG, AND SOME 35,000 STUDENTS DEVELOP THIS SENSE OF OWNERSHIP THROUGH GREEN SCHOOLS @ SOUTH WEST EVERY YEAR.**

Organised by the South West Community Development Council (CDC) and supported by the National Environment Agency (NEA), the programme engages students from primary and secondary schools in South West District on environmental issues through a series of talks and activities.

## HOW THE PROGRAMME WORKS

Under the Green Schools @ South West 2021 Accreditation Programme, participating schools are encouraged to complete activities such as organising recycling drives. These activities fall into three categories — Public Health, Environment Protection and Junior Environment Ambassador (JEA) — and schools are awarded a star for each accomplished category. To earn a JEA Star, a school must enrol 10 students for the JEA camp. The annual camp grooms students to become role models by equipping them with both environmental and leadership skills to guide their peers. Over 250 students from 31 schools were trained through the camp in 2021.

## RECOGNISING THE EFFORTS PUT IN BY SCHOOLS

On 16 March 2022, close to 60 teachers and principals of schools who participated in Green Schools @ South West 2021 gathered online for the Green Schools @ South West Award Ceremony 2022 to celebrate their efforts in promoting environmental awareness. 27 schools received three stars, five received two stars and three received one star.

Said Mr Zhulkarnain Abdul Rahim, Vice-Chairman of South West Community Development Council (CDC) and Adviser to Chua Chu Kang GRC GROs (Keat Hong), who presented the awards, "We hope to support teachers with activities and resources to educate, enrich and empower the students with not only greater environmental awareness and knowledge but also with leadership skills and the ability to lead and advocate environmental sustainability for their peers and the community."

For three-star recipient and winner of the South West CDC's Sustainable South West Awards 2021, Dazhong Primary School, the ceremony was especially

memorable as teacher representative Ms Ong Xuan Wan presented what her students had learnt through the programme. Through its 3As Approach (Awareness, Action, Advocacy), Dazhong Primary School has built a community of "Green Makers" who takes the initiative to come up with green solutions and encourages their peers and families to do the same. For example, during the course of the year, students from the school's GreenTech Club came up with a multi-player card game — named *Enviromon*, a riff on *Pokemon* — which allows both students and their families to discover facts and tips on waste issues in Singapore. **B**

## >> YEAR-ROUND ENGAGEMENT 1.

**Green Schools @ South West continues to educate, enrich and empower the students in 2022 through the following initiatives:**

### >> Green school activities

Cover topics such as dengue protection, maintaining a litter-free environment, clean eateries, 3Rs (reduce, reuse and recycle) and energy conservation.

### >> Junior Environment Ambassadors (JEAs) Online Training Day Camp

JEAs learn about environmental issues and increase confidence for outreach purposes in this annual event.

### >> Online assembly skits

These skits incorporate interactive quizzes that focus on environmental topics.

### >> Young Technopreneur Challenge 2022 (for secondary schools only)

A series of bootcamps jointly organised with Hewlett Packard Inc, Junior Achievement Singapore and South West CDC, in which students receive mentorship and develop solutions that align with the UN Sustainable Development Goals, Singapore Green Plan 2030 and Sustainable South West Masterplan.

### >> Woke Wednesday Campaign

In partnership with Life3 Biotech, the campaign raises awareness on the importance of food sustainability by offering plant-based foods in school canteens.

# Nurturing a generation of eco heroes

13 PRESCHOOLS WERE COMMENDED AT THE AWARD CEREMONY OF MY PRESCHOOL SHINES @ SOUTH WEST FOR THEIR SUSTAINED EFFORTS IN INCULCATING GREEN HABITS IN YOUNG CHILDREN.

**S**INCE 2011, MY PRESCHOOL SHINES @ SOUTH WEST HAS BEEN SUPPORTING THE ENVIRONMENTAL EDUCATION OF PRESCHOOLERS IN THE SOUTH WEST DISTRICT. Jointly run by the South West Community Development Council (CDC) and the National Environment Agency (NEA), the programme aims to encourage children aged three to six to adopt green values and habits — both in school and at home — and promote them to their family members. This year, 49 preschools came on board for My Preschool Shines @ South West.

At a virtual award ceremony on 10 March 2022, which was attended by more than 40 principals and teachers, 13 preschools were commended for their efforts to promote green habits. Schools were evaluated based on the quality and engagement levels of their activities held during Environment Week (any week between January and July). Through card games, puzzles, colouring sessions, displays and even live-streamed skits, preschoolers learnt about topics such as the 4Rs (Reduce, Reuse, Recycle, Refuse), energy efficiency and dengue protection.

## RECOGNISING GREEN EFFORTS

My First Skool @ Blk 698C Jurong West came out tops with the highest score accumulated through different activities such as skits and exhibitions, while PCF Sparkletots Preschool @ Bukit Batok Blk 148 and PCF Sparkletots Preschool @ Bukit Batok East Blk 208 took the second and third spots respectively. 10 other preschools received merit awards. In addition, My First Skool @ Blk 698C Jurong West and PCF Sparkletots Preschool @ Bukit Batok Blk 148 were conferred Outstanding Achievement Awards for coming in top three for three consecutive years.

Ms Celia Teo, Executive Principal of My First Skool @ Blk 698C Jurong West, said, “We were all delighted when we were conferred with the first prize. Parents are proud of their children’s achievements, and we are ever appreciative to our parents and children for their constant support and partnership. Our teachers have also done a great job initiating various activities that involved both students and their families.”

The highlight of the award ceremony was a pre-recorded performance by “Eco Heroes”, in which preschoolers from My First Skool @ Blk 698C Jurong

Mr Shawn Huang, Vice-Chairman of South West CDC and Adviser to Jurong GRC GROs (Jurong Spring), and Mr Tiew Chew Meng, BBM, Chairman of South West CDC Environment Functional Committee, congratulating Cluster Quality Manager Ms Celia Teo who received the Outstanding Achievement Award on behalf of My First Skool @ Blk 698C Jurong West.

West spread the message about green living, from taking public transport to taking good care of their toys and books through song and dance. “The song was selected from the school’s 2021 K2 graduation ceremony song list,” shared Ms Teo. “Based on the theme ‘Spread the Superpower’, we hope the performance can raise awareness on good environmental practices and spread the message that everyone can play a part to save Mother Earth.”

Guest of Honour and Vice-Chairman of South West CDC and Adviser to Jurong GRC GROs (Jurong Spring) Mr Shawn Huang said, “Our children are the future pillars and builders of our nation. By empowering preschoolers to learn and understand more about the environment and to adopt good environmental and public health practices, they in turn can make a difference by influencing and convincing their parents and grandparents to change their habits to be more eco-conscious.” *B*

**M**ADAM TEH KIM ENG, 62, SELDOM HAS HER HEALTH CHECKED, BECAUSE SHE DOES NOT HAVE ANY SIGNIFICANT HEALTH PROBLEMS.

Since the start of the COVID-19 pandemic, she had not gone for any health examinations. Recently, she was introduced to the free health screening service provided under the Community Telehealth Service (CTS).

Led by nine students from the Nanyang Technological University (NTU) Lee Kong Chian School of Medicine (LKCMedicine) and the Interdisciplinary Graduate Programme (IGP), CTS is targeted at Singaporeans above 50 years of age and those who have had their regular health check-ups deferred due to COVID-19. Following a successful pilot in Punggol in January 2021, NTU partnered the South West Community Development Council to bring CTS to Bukit Gombak.

NTU alumnus Mr Gan Teng Fong, 35, said the ground-up initiative came about as the team learnt that many seniors were not getting their essential health screening done during the pandemic. “A lot of the basic healthcare resources were tied up, so we wanted to provide complimentary healthcare screening services. The response from residents has been good,” said Mr Gan.

Mayor of South West District Ms Low Yen Ling said the initiative with NTU graduate students and REACH Senior Centre @ Bukit Gombak Vista helped to bring free telehealth screening and mental wellness checks to elderly Bukit Gombak residents in

the convenience of their estate. “This youth-led collective effort is heartening as we see our young people take ownership to boost our community resilience through their care for older Singaporeans,” she added.

## THE IMPORTANCE OF EARLY DETECTION

Mdm Teh had her visceral fat and blood glucose levels, body mass index and blood pressure checked in the telehealth booth located beside REACH Senior Centre @ Bukit Gombak Vista. This booth was run by 24 NTU students and 50 other volunteers.

As her blood pressure was quite high, a health coach advised Mdm Teh to reduce her carbohydrates intake and eat more vegetables and protein. “She also told me to do some simple exercises at home to improve my strength, balance and flexibility. I might consider buying a blood pressure monitor to check my blood pressure at home,” shared the Bukit Gombak resident.

Mdm Teh was also screened for diabetic retinopathy, glaucoma suspect and age-related macular degeneration using the artificial intelligence (AI) eye health screening system EyRIS SELENA+ provided by Singapore start-up EyRIS.

Community volunteer Ms Angela Phay, 55, noted that senior residents are usually more concerned about their eye-screening results. “Some of them are worried about eye degeneration and intend to go for further screening and follow up with their family physician when the COVID-19 situation improves,” she said.

A new addition to this health screening was the inclusion of a mental well-being assessment questionnaire by the Ageing Research Institute for Society and Education (ARISE). “The assessment allowed me to better understand my mental health and to seek help if necessary,” said Mdm Teh.

## LOOKING OUT FOR OUR SENIORS

Ms Phay found the volunteering experience meaningful because it helped seniors detect health problems early. “Prevention is always better than cure, and they can address any issues before they get serious,” she said.

Ms Zhang Yichi, a PhD candidate from NTU's IGP and one of the leaders of CTS said, “We are grateful for the help of our community partners to expand our service to more locations to benefit more people. We hope to sustain our efforts to continue beyond the pandemic.” The CTS team will be deploying more telehealth monitoring booths in other neighbourhoods. *B*

# Every Contribution counts

**WHEN COVID-19 HIT, BO TIEN WELFARE SERVICES SOCIETY CONTINUED TO PROVIDE MANPOWER SUPPORT AND DONATIONS-IN-KIND TO VULNERABLE RESIDENTS LIVING IN THE SOUTH WEST DISTRICT.**

**F**OR **NEEDY HOUSEHOLDS LIVING IN THE SOUTH WEST DISTRICT**, relief programmes organised by the South West Community Development Council (CDC) have helped defray the costs of living, particularly during the COVID-19 pandemic. That has been made possible with the support of community partners such as Bo Tien Welfare Services Society.

Since 2005, the social service agency has been lending residents a helping hand by providing in-kind donations and manpower support for South West CDC's distribution drives under Food Connect @ South West, a monthly food rations programme to support vulnerable residents in the district.

Mr Pete Kong, President of Bo Tien Welfare Services Society, said the organisation's mission is to help the less fortunate, and he is grateful for the community of organisations and individuals that work together like a big family. "Partnering the South West CDC is of great importance to us, because it is through them that we are able to reach a large group of vulnerable residents. We are grateful to our supporters, well-wishers, volunteers and all the corporate officers who have assisted us," he said.

Every month, staff and volunteers from Bo Tien Welfare Services Society prepare food packs sponsored by South West CDC partners, and distribute them to more than 700 South West District residents under Food Connect @ South West. Household essentials are also distributed

bi-annually. To reach out to more residents, Bo Tien Welfare Services Society generously contribute and distribute South West Relief Food Packs to families requiring support in food rations on a quarterly basis.

In 2020, Bo Tien Welfare Services Society contributed close to \$15,000 worth of groceries and packed over 700 relief food packs containing items such as noodles, beverages and canned food.

## UNDETERRED BY COVID-19

When the pandemic hit, Safe Distancing Measures implemented during the critical periods made it challenging for non-staff volunteers to aid in manpower support. Despite that, Bo Tien Welfare Services Society's

determination to help the community did not waver. A handful of staff stepped up and volunteered their time to help assemble 1,500 care packs for residents who were on the COVID-19 Home Recovery Programme.

Ms Mary Yeo, 64, was one of the staff who rolled up her sleeves and heeded the call for help. "During COVID-19, there weren't volunteers to help pack items, so staff members such as the storeman and drivers all helped out. We feel good about contributing to society in some ways even though we do not actually meet the beneficiaries," she said.

For their commitment in supporting the community, Bo Tien Welfare Services Society received the South West Caring Corporate Awards 2020 – Sapphire Award, which recognised organisations for their outstanding contributions towards building a caring South West community. Mr Kong said, "It is a great honour for Bo Tien Welfare Services Society to receive the award. We would like to dedicate the award to all the people who have supported us." **B**

# Celebrating by doing good

**NTU PARTNERED SOUTH WEST CDC TO LAUNCH A SERIES OF SOCIAL WELFARE PROJECTS AS PART OF ITS 30<sup>TH</sup> ANNIVERSARY CELEBRATION.**

**S**UPPORT FROM THE COMMUNITY HAS PLAYED AN IMPORTANT ROLE IN NANYANG TECHNOLOGICAL UNIVERSITY'S (NTU) transformation from a teaching university to an internationally renowned research-intensive university today. To pay it forward as it celebrated its 30<sup>th</sup> anniversary, NTU rallied hundreds of students, faculty, staff and alumni to give back to the community as part of the NTU Service Week, which ran from 22 to 29 January 2022.

"Community engagement and support have been defining features of NTU's rich heritage and phenomenal growth since its inception," said NTU President Professor Subra Suresh. "Over the past two years, the OneNTU family has come together to support those in need in response to the global pandemic. The NTU Service Week is another expression of the community spirit that connects us all together through shared values."

Launched by Mayor of South West District Ms Low Yen Ling on 22 January, NTU Service Week is the first of three initiatives under NTU's new "We Belong" campaign that aims to encourage students, faculty, staff and alumni to help those in need through volunteering and fundraising. Close to 600 members of the NTU community volunteered over 3,300 hours in over 60 service projects supporting various causes. Some 6,000 beneficiaries in Singapore, Cambodia, and Malaysia received help in various forms through this inaugural initiative.

## JOINING FORCES FOR GREATER IMPACT

As a key partner of NTU Service Week, the South West Development Council (CDC) supported NTU in the execution of projects in the areas of social welfare and sustainability. One such project is a tele-befriending initiative under Adopt-A-Senior @ South West in which 40 students from the NTU Welfare Services Club – Regular Service Project (Elders) provided socio-emotional support and assistance to 30 seniors from NTUC Health SAC (Taman Jurong). Efforts to ensure the health of seniors in the district also saw a group of NTU Graduate College and Lee Kong Chian School of Medicine students initiating telehealth services for residents above 50 years old. This has enabled them to have their blood glucose level, body mass index, heart and eyes checked at a designated booth in Bukit Gombak.

In addition, NTU volunteers helped vulnerable residents through two programmes under the CDC's Adopt @ South West. On top of packing and distributing Festive Cheers Packs to 3,200 vulnerable households as part of this year's Festive Cheers @ South West, students from NTU's School of Humanities

Student Club and School of Mechanical and Aerospace Engineering also taught hip-hop dance and STEM concepts (robotics, aerodynamics, 3D printing) to students from Chua Chu Kang Primary School and Boon Lay Garden Primary School respectively as part of an after-school intervention programme.

On the sustainability front, South West CDC's partnership with NTU for its district-wide trash-for-groceries recycling drive saw the set-up of seven recycling points across the NTU campus to collect recyclables such as clothes, paper, newspaper and non-regulated e-waste.

## ENABLING DIGITAL INCLUSION

Another 300 residents benefitted from NTU's laptop donation drive. Among them was Mrs Nursafawati Binte Kamaruz'zani, who received a refurbished laptop that her son used for e-learning. "It was difficult for him to look at the videos and PowerPoint slides through the small phone screen," said the 34-year-old. "We're thankful to receive the laptop as we would not have been able to afford one as my husband who works as a technician is the sole breadwinner."

Thanking the NTU community for their contributions, Mayor Low said, "NTU Service Week sees the entire NTU family extending their time, expertise and support across a variety of projects to uplift vulnerable residents in the South West District. This strong spirit of giving back distinguishes NTU as a university with a heart to care. We look forward to continuing and deepening our partnership to build a more caring and inclusive South West community." **B**

# Rallying youth to shape the future of elderly care

YOUTH TEAMS FROM THE SUSS IMPACT STARTUP CHALLENGE 2022 DEVELOPED INNOVATIVE SOLUTIONS FOR SENIORS.

**A**T TIMES, SOCIAL SERVICE AGENCIES ARE UNABLE TO TELL WHETHER BENEFICIARIES HAVE COLLECTED OR CONSUMED MEALS PREPARED FOR THEM. To address this issue, four tertiary students came up with an innovative solution — using QR code technology to track if beneficiaries have consumed meals delivered to them.

Named QRCare, the idea was mooted at the Singapore University of Social Sciences (SUSS) Impact Startup Challenge (ISC) 2022, an online entrepreneurship bootcamp organised by the school. Comprising two students from SUSS and two students from SUSS' partner ASEAN universities, the team joined two other teams to bag the opportunity to bring their ideas to life through the South West Youth Fund — a fund by the South West Community Development Council (CDC) to support ground-up initiatives by youth groups. The fund gives the QRCare team a head start in the Alibaba Cloud - SUSS Entrepreneurship Programme, of which securing funding or achieving an annual revenue for their start-ups is a criterion for successful completion.

## CREATING A POSITIVE IMPACT

The theme for ISC 2022 is gerontology, with problem statements positioned to improve the quality of life for the elderly in the areas of digital literacy, senior engagement and volunteer facilitation. Mayor of South West District Ms Low Yen Ling, who graced the pitching session shared that this theme was picked in response to the issues Singapore is facing as a rapidly-ageing society.

"Amid these challenging times, South West CDC continues to strengthen our role as an aggregator, builder and connector — our ABC Mission," said Mayor Low of South West CDC's partnership with SUSS. "This period of social distancing and disruptions due to the COVID-19 pandemic has heightened the sense of isolation and the level of stress for everyone, especially our elderly."

ISC 2022, which ran from 17 to 22 January 2022, was started by SUSS in 2017. Since then, the programme has seen more than 17 runs and incubated more than 50 start-ups. Of these, 30 per cent received pre-seed or seed stage funding amounting to \$9 million in total. More than 600 students have built impact-driven businesses in areas such as social entrepreneurship, early childhood and sustainability.

## EMPOWERING BUDDING ENTREPRENEURS

This year, South West CDC invited industry experts and representatives from its corporate and community partners to share their insights and provide coaching for the six-day bootcamp, which was taught by Dr Kelvin Tan, Senior Lecturer (Minor/Master/PhD in Gerontology Programmes) and Mentor (Venture Builder Programme) of SUSS. The modules were designed such that the students learn new lean methodology tools they could use to test, validate and build their business

Left to right: Ms Janice Chia from Ageing Asia, Mr Ng Wei Xuan from Apex Harmony Lodge, Mr Oliver Tian from Oliver Tian Associates, Mr Terence Quek, BBM, from South West CDC and Dr Vivian Lou from Hong Kong University evaluated the ideas presented at the entrepreneurship bootcamp.

UR Box was one of six teams that participated in the SUSS Impact Startup Challenge 2022.

## SUSS IMPACT CHALLENGE

➤ 17 runs in the past 3.5 years

➤ 600+ participants including local and overseas students

➤ 100+ ideas generated

➤ 16% of SUSS students continue building companies and successfully entered Alibaba Cloud - SUSS Entrepreneurship Programme

ideas rapidly and confidently.

"There is not a single day that lacks diversity of ideas from the teams and their mentors," said Dr Tan. "The potential benefits these innovative ideas could bring to ageing families and their caregivers are boundless."

Six participating teams presented an innovative solution each, as part of this year's ISC, with the top team selected by an independent panel of representatives from Ageing Asia, Apex Harmony Lodge, Oliver Tian Associates, South West CDC and The University of Hong Kong.

At the heart of this successful start-up challenge was a positive experience that not only cultivated a sense of community among the youth but also inspired empathy and open-mindedness. "This whole experience has been very enriching. Going through the bootcamp and working with students from other countries has helped me learn more about the ageing issues in their cities, which really inspired me," shared Lucas Lim, SUSS Year 2 student and member of the QRCare team. **B**

**F**OR 50 YEARS, THE CHINGAY PARADE HAS BEEN A MAJOR HIGHLIGHT OF SINGAPORE'S CALENDAR, CELEBRATING AND SHOWCASING OUR MULTIRACIAL AND MULTICULTURAL FABRIC. In light of COVID-19, this colourful extravaganza has shifted online since 2021. But that has not dampened residents' enthusiasm for the yearly event where many tuned in to watch the Chingay50 at Jewel Changi webcast on 12 February 2022. These included some 300 nursing home residents and clientele of senior day care centres, who caught the parade at a watch party organised by the Singapore University of Social Sciences (SUSS), with the support of the South West Community Development Council (CDC). This is the second consecutive year that South West CDC has partnered SUSS for the Chingay Watch Party.

"Even though it was held virtually, we could still see the smiles on their faces," shared Dr Kelvin Tan, a Senior Lecturer from SUSS who spearheaded the Chingay Watch Party. Dr Tan is familiar with the parade, having been involved in the programme as a sponsor and a multimedia partner for 15 years. He knew how best to bring the festive mood online and did so with a lively pre-event segment that included student performances, a singalong of Chinese New Year songs and fun facts about Chingay. "Seniors were

## CHINGAY FUN FACTS

➤ "Chingay" is derived from the Chinese word *zhuangyi*, which refers to the art of costume and masquerade.

➤ The first Chingay Parade was held between Jalan Besar and Outram Park. This year, it was telecast live from Jewel Changi Airport.

happily swinging their light sticks and clapping along. It was wonderful to see them engaged and enjoying themselves so much," said Dr Tan about the nursing home residents' reaction at the virtual watch party.

SUSS alumnus Mr Ang Hock Pho had attended the event in person with some residents from Adventist Active Centre @ Golden Peony. He said that the seniors were overjoyed to be able to reminisce about Chingay parades of the past. This was precisely the kind of mood that the Chingay virtual watch party hoped to create. Throughout the evening, participants of the watch party also used the opportunity to send well-wishes to one another by speaking via Zoom and by using the chat function.

Mayor of South West District Ms Low Yen Ling was heartened by such interactions. "This year's Chingay theme, 'Ignite our Dreams', commemorates the parade's 50<sup>th</sup> year in celebrating Singapore's rich culture in a very unique way. Through 50 stories, Chingay 2022 brings together people from all walks of life to share their fond memories and experiences over a much-loved parade," she said in her opening address.

For watch party participant Mdm Goh Beng Sim from Adventist Home for the Elders, the music and dance at Chingay parades have always been enjoyable. "What I like the most about Chingay is the colourful costumes. I am glad that I was able to soak in the atmosphere through the virtual party," said the 79-year-old. Mr Freddy Lim from the same home had a similarly pleasant experience. "I enjoyed the performances very much and am happy to watch the parade online with my friends," said the 74-year-old.

"We want to thank all our partners for making this event memorable," Dr Tan said. Mayor Low also thanked the staff of the nursing homes and the caregivers of beneficiaries, who have shown "unwavering care, patience and perseverance" during the COVID-19 pandemic. **B**

# Making time for what matters

**S**ETTling INTO A COUCH FOR OUR INTERVIEW, MINISTER FOR TRADE AND INDUSTRY MR GAN KIM YONG DISPLAYS AN UNASSUMING MANNER, and it is easy to see why he is well-liked by residents of Chua Chu Kang – where he has served for 16 years. Life has come full circle for the former Minister for Health as he finds himself back in the Ministry of Trade and Industry where he started his career in the Singapore Civil Service. Besides identifying new opportunities for Singapore's economic growth and negotiating free trade agreements with other countries, the Adviser to Chua Chu Kang GRC GROs (Chua Chu Kang) is still very much focused on connecting with residents under his care.

With most group activities suspended over the past two years, Mr Gan is keen to restart activities for the Chua Chu Kang (CCK) community and appreciated the chance to go on a trip to Gardens by the Bay with residents in February 2022. "We caught the beautiful Chinese New Year-themed display at the Flower Dome. It has been a while since we last went out together, and I was really happy to see many familiar faces and know that residents are healthy," shares Mr Gan.

**ADVISER TO CHUA CHU KANG GRC GROs (CHUA CHU KANG) MR GAN KIM YONG SHARES WHAT HE HOPES TO DO MORE IN 2022.**

Before the pandemic, his team used to organise overseas trips to neighbouring countries for residents once a year, and he recalls one trip to Malaysia where there was a power failure halfway through their dinner. "Our food couldn't be cooked. One of our grassroots leaders who is an electrical engineer managed to

## WHAT MR GAN ENJOYS

HE LOVES "SIMPLE ICE-CREAM" – RED BEAN POTONG IS HIS FAVOURITE.

HE AGREES WITH HIS COLLEAGUE WHO SAID HE IS CURIOUS AND KEEN TO LEARN. "I TRY ALL KINDS OF NEW THINGS. IT MAY SEEM IMPOSSIBLE SOMETIMES, BUT WE PUSH FOR IT. I'M STILL YOUNG AT HEART," MR GAN GUFFAWS.

Before COVID-19 started, Chua Chu Kang residents who participated in the Corridor Gardening initiative learnt how to plant vegetables with the guidance of grassroots volunteers, and volunteers from NParks and Jurong-Pioneer JC.

diagnose the problem and reactivate the power," recounts Mr Gan. Whether overseas or in Singapore, such outings are excellent avenues for him to engage residents and for them to know one another. "The idea is to bring residents together. This is a very good way to strengthen community bonding as well as family bonding because residents would usually bring their whole family along," he adds.

## MAKING CHUA CHU KANG GREENER

Mr Gan is also keen on engaging residents through nature, citing instances of outings with them at Choa Chu Kang Park and the spaces allocated for community gardeners to plant fruits and vegetables in the park. "I like Choa Chu Kang Park, which was expanded to almost double its original size. Last year, we showcased art pieces done by Chua Chu Kang Secondary School students in the park. We used to have "Sundays at the Park" organised by the Health Promotion Board, but that has stopped because of COVID-19," he says.

Despite challenges posed by the pandemic, efforts to build green communities have not ceased. An eco-town HaCCKathon was held virtually in 2021 whereby residents brainstormed ideas to make Chua Chu Kang more eco-friendly over several online sessions. "They came up with many ideas on energy conservation, sustainability habits

and so on. The ideas were compiled and applied where applicable. We also shared them with various agencies like NParks as part of our awareness-building efforts," explains Mr Gan.

The Corridor Gardening initiative that sees residents planting vegetables at their doorsteps is another initiative that the Chua Chu Kang division has embarked on. "Since we pride ourselves as a city in a garden, why not make every home a garden," Mr Gan quips. Under this initiative, Chua Chu Kang residents can purchase a gardening starter kit (including a planter box, soil, gardening tools, vegetable seeds, and a frame to hold the planter box) for just \$8. "We want to create a community. We created a Facebook group and encouraged participants to share their successes and solutions there. We also involve students and NParks to teach seniors how to plant the edible vegetables," he shares enthusiastically, adding that these lessons were previously held physically but switched to being conducted virtually now. The initiative has proven to be a good way to de-stress and connect with other residents as COVID-19 hit shortly after it was introduced. "Residents continue to show strong interest, and we have over 800 people waiting to get their kits," reveals Mr Gan. When asked if he is into gardening, the 63-year-old says with a laugh, "I don't have green fingers, but I keep some plants at home and keep trying."

Chua Chu Kang residents who visited Gardens by the Bay with Mr Gan during Chinese New Year this year each brought home a potted plant souvenir prepared by the CCK GROs.

## Can you share how your wife has influenced your life?

She is part of my life, and she is my life. When I entered politics, I had a long discussion with her, because at that time, my children were very young. I knew I would be spending less time with my family. She was very supportive, and that gave me the confidence to take up my political duties. She has done very well; she took charge of all the family affairs including those pertaining to finance, maintenance and our children's education — while working full-time. We have a strong partnership. Without her dedication and support, I won't be able to spend time with the community.

## What would you like to do more of this year?

Spend more time with my extended family and residents so we can maintain the connection — we have lost a lot of time because of the pandemic. I hope COVID-19 will be over soon, and we can organise more outdoor activities especially for our seniors as they have been staying at home a lot. It's important for them to go outdoors and get sunlight and social interaction. We are working with the People's Association to organise more activities with safe management measures in place now that most of them are vaccinated. We also want to continue reaching out to vulnerable residents — seniors and those with lower income — through programmes such as Project 1659 and Festive Cheers @ South West.

## You wrote a Facebook post about a walk along Yishun Dam on New Year's Day. Do you usually take such walks with your family?

I visited quite a number of parks at the end of last year. It's hard to come together to do things because my children are grown up and have their own activities. We all took leave and spent some time exploring Singapore instead of travelling overseas. Going to Yishun Dam was my wife's idea. It was an enjoyable walk. We also went to the Botanic Gardens, Windsor Park and National Gallery. I also took an evening walk along Marina Bay with my family, and we enjoyed the view. I hope to take residents there as the area looks beautiful at night.

蔡厝港集选区基层组织顾问  
**颜金勇**先生分享了自己  
哪些方面希望做得更多。

**接** 受采访当天，贸工部长颜金勇先生以和蔼的态度坐在沙发上与我们交谈，一下子便拉近了我们的距离。这也许是在蔡厝港区服务的16年中，始终深受居民爱戴的原因之一。这位前卫生部长的政治生涯就像是一个闭环，因为他目前所任职的贸工部正是他开启公务员职业生涯的地方。身为蔡厝港集选区基层组织顾问，颜部长除了为新加坡的经济增长寻找新机会以及与其他国家谈判自由贸易协定，也十分注重与本地区居民建立良好的联系。

由于在过去两年里，大部分的团体活动都因为疫情而暂停，颜部长目前正在致力于重启蔡厝港的社区活动，并表示很庆幸能有机会在今年2月份与居民一起参观滨海湾花园。他分享道：“我们在花穹欣赏了美轮美奂的农历新年主题花展。我和居民们已经很长时间没有一起参加活动了。”

## 颜部长的爱好

➤ 他每天都会喝两杯无糖咖啡乌。

➤ 他喜欢吃“简单的冰淇淋”——红豆冰棒是他的最爱。

➤ 他的同事说他具有好奇心，喜欢学习新事物，而他对此也表示赞同。颜部长笑着说：“我会尝试各种新事物。有时候即使看起来不可能，我还是会努力坚持。我的内心还是很年轻的。”

Mr Gan distributed items that children from vulnerable households wished for under Project 1659 - Grant-a-Wish Programme.

Mr Gan joined residents for a morning walk at Teck Whye Garden.

我很高兴能看到许多熟悉的面孔，知道大家很健康也让我感到安心不少。”

在疫情之前，他的团队每年都会组织居民到邻国旅游。他回忆起一次在马来西亚旅游时，大家在享用晚餐到一半就突然停电了。颜部长叙述道：“我们根本没办法继续煮食物。幸好团队里有一名基层领袖是电气工程师，他顺利找出问题根源，并成功恢复了电源。”无论是在国内还是国外，这样的出游活动是他与蔡厝港区居民接触并相互了解的绝佳机会。“我们希望与居民保持良好的联系，而这些活动能加强社区与家庭凝聚力，因为居民通常会和家人一起参与。”

## 进一步绿化蔡厝港

颜部长也热衷于邀请居民一起亲近大自然。他会和居民们一起前往蔡厝港公园郊游，也在公园里为社区园丁们划分了一些空地，让他们种植花果蔬菜。他说：“新的蔡厝港公园面积比原来扩大了几倍，而我们去年在园里展示了蔡厝港

中学的学生们所制作的手工艺品。我们以前也会联合保健促进局举办星期天公园日（Sundays at the Park）活动，但因为冠病疫情而暂停了。”

尽管疫情带来了许多挑战，建设绿色社区的脚步却从未停下。蔡厝港团队在2021年举行了一场虚拟“编程马拉松”活动。居民们通过一系列线上会议集思广益，提出了很多让蔡厝港更环保的建议。颜部长受访时解释：“他们提出了许多与节能和可持续发展相关的想法。这些想法经过整理后，在适当的情况下加以应用。我们还与国家公园局等机构分享这些想法，作为我们提升环保意识举措的一部分。”

蔡厝港基层组织也另外发起走廊园艺（Corridor Gardening）的活动，让居民能够在自家门口种植蔬菜。颜部长打趣道：“既然我们为新加坡拥有‘花园城市’的美称而感到自豪，那何不将每个家庭打造成一个小花园呢？”在这次倡议下，蔡厝港的居民只需花8元就能购买一份园艺入门套件（包括花盆盒、土壤、园艺工具、蔬菜种子和放置花盆盒的架子）。“我们想要构建一个园艺社区。于是，我们创建了一个面簿群组，鼓励居民们在那里分享他们的成功经验和技巧。我们还邀请了学生和国家公园局的工作人员，教导乐龄人士如何种植可食用的蔬菜。”颜部长补充说，这些课程以往都是线下教学，现在都改成了线上。走廊园艺活动推出后不久便爆发了冠病疫情，居民的生活受到限制。但也正因为如此，这类活动成了减压和维持居民社交关系的好方法。颜部长透露：“居民们对这活动的兴趣不断增加，目前等待领取套件的人数已超过800人。”当被问及自己是否也喜欢园艺时，这位63岁的部长笑着说：“我不擅长园艺，但还是在家中尝试种了一些植物。”

## 元旦当天，您在面簿上发表了一篇关于与家人在义顺水坝散步的贴文。您经常和家人这样散步吗？

我在去年年底去了很多公园。我们全家很难一起外出，因为孩子们都已经长大，各自有自己的社交活动。这次我们一起请假，花时间探索新加坡，而不是出国旅游。去义顺水坝是我妻子的主意，而那次的出游的确让我们感觉愉快。我们也去了植物园、温莎自然公园和国家美术馆，晚上还沿着滨海湾散步，欣赏那里的风景。我希望能够组织居民们去那里看看，因为那儿的夜景真的很美。

## 您能分享妻子对您的人生有何影响吗？

她是我生命中重要的一部分，也是我生活的全部。我在刚开始从政时跟她讨论了很长时间，因为那时孩子们还很小，而我知道陪伴家人的时间将会大大减少。当时她就非常支持我，让我能安心将重心放在工作上。我很欣赏也感激她，因为她不仅负责所有的家庭事务，包括财务、

顾家和教育，还要兼顾自己的全职工作。我们之间情比金坚。没有她的奉献和支持，我就没办法花时间在社区工作上。

## 您今年希望能更专注于什么？

我希望能拥有更多的时间陪伴家人、亲戚以及我的居民。这样一来，我们就能保持良好的联系——因为疫情的关系，我们失去了很多与彼此相处的时间。我希望冠病疫情能尽快结束，这样我们就能为居民组织更多户外活动，尤其是年长居民——因为他们大部分时间只能待在家中，而对他们来说，到户外去享受阳光和与居民社交也是很重要的。我们正在与人民协会合作，计划在保证安全管理措施的前提下举办更多活动，毕竟现在大部分人已接种疫苗。与此同时，我们也希望能够通过“Project 1659”和“欢庆佳节在西南”这类活动继续向区内的弱势群体伸出援手，尤其是乐龄人士与低收入家庭。B

**EVERY MONDAY, A VAN ARRIVES AT NANYANG COMMUNITY CLUB (CC),** offering Traditional Chinese Medicine (TCM) consultations from 10am to 4.30pm. Started in January 2021, this mobile TCM clinic is a joint partnership between Nanyang Grassroots Organisations, Loving Heart Multi-Service Centre (Jurong) and Cheng Hong Welfare Service Society.

Open to all Nanyang residents, the mobile TCM clinic is easily accessible and provides medical consultation, acupuncture and herbal medication free of charge. Dr Tan Tian Seng, who is the mobile clinic's doctor, sees many elderly patients, whom he treats mostly for joint pains.

One of his patients is Ms Penny Teo, who lives near Nanyang CC. The 65-year-old related

her experience of being introduced to the mobile TCM clinic, "I found out about this clinic through the poster in my HDB lift noticeboard. My friend had visited it before, and she told me that the doctor is reliable and good." She attested to Dr Tan's effective treatment after visiting him for pain around her kneecaps and has undergone acupuncture regularly for the past four months. She added that one would need to "catch hold of booking slots" due to the limited number of appointment timeslots and the popularity of the mobile TCM clinic.

Ms Jennifer Goh, another patient of Dr Tan, expressed similar sentiments about his services, stating two main reasons for her regular visits. "First of all, it is near to my house. Secondly, the services are free," shared the 56-year-old. She added that retirees and the needy will be able to get TCM treatments without worrying about the cost.

Alongside Dr Tan, there are volunteers who assist him in the registration and appointment booking of his patients. Though the mobile TCM clinic is largely aimed at serving seniors, Nanyang residents from other age groups have also visited and benefitted from its services. The mobile TCM clinic is a charity initiative and will maintain its services free of charge. **B**

The well-equipped mobile clinic is stocked with various herbal medications and tools for treatment.

**M**R SOVIN IS ONE OF ABOUT 250 PARTICIPANTS WHO HAD PRE-REGISTERED ONLINE FOR THE SGUNITED-E2I JOBS & SKILLS DISCOVERY HELD AT JURONG GREEN COMMUNITY CLUB ON 31 MARCH 2022. Jointly organised by the South West Community Development Council (CDC) and the Employment & Employability Institute (e2i), the job fair offered over 700 job vacancies from more than 12 different companies. Mr Sovin was eager to find opportunities for growth in warehouse operations, which he currently works in, and was awed by the wide selection of jobs available. "Since there are many companies and vacancies listed here, there is bound to be lots of opportunities. So I'll give my best shot," the 42-year-old shared.

SGUnited-e2i Jobs & Skills attracted job seekers across different age groups.

## SUPPORTING WITH SPECIALISED SERVICES

Apart from offering a vast array of jobs, SGUnited-e2i Jobs & Skills Discovery focused on improving the employability of job seekers and helping them search

for opportunities in a more targeted manner. For this purpose, e2i set up three stations to provide personality testing and skills analysis to help job seekers identify gaps as well as elevator pitch coaching to help them position themselves well to the employers. A team of on-site advisers guided the job seekers on the use of these stations. Participants *BRIDGE* spoke to found the personality test and skills analysis stations most useful. At the former, attendees identified their dominant personality traits by picking "fruits" (that correspond to a given characteristic) from a Profiling Tree. They then had their resumes examined and received a comprehensive skills analysis report at the skills analysis station.

e2i shared that these services helped job seekers understand themselves better before they identify options that suit them. Hence, the job fair attendees could take a more targeted approach to share how they can value-add to prospective employers.

## MEETING DIVERSE NEEDS

Other than helping job seekers improve their employability, the job fair offered a variety of positions that catered to different skill sets and academic qualifications. Jobs ranged from logistical roles to doctors and teachers. Apart from on-the-spot interviews, the event referred suitable participants to employers who were not on-site.

To enable residents to work closer to home, e2i had partnered with various companies to provide job opportunities within the district through job fairs (particularly Jurong West for this event).

First-time fair participant Mr Mohamed Fazil was one of the job seekers who found a job near his home. "Working near home would definitely reduce my travelling time and expenses. Spending lesser time commuting would help me be punctual and allow more time for work planning," said the Jurong resident, who was hired as a Procurement Manager by Big Foot Logistics (BFL).

The 51-year-old, who used to work in the marine industry, shared that SGUnited-e2i Jobs & Skills Discovery helped him land the job in the supply chain industry. "The fair brought many companies together and allowed me to go for more than one interview in a single location. The job listing booklet was also very useful," he said. Mr Guna Jaganathan, General Manager of BFL, shared that participating in the job fair was fruitful. "BFL also recruited a Senior Human Resource Manager, a Warehouse Supervisor and a Fleet Coordinator through the fair. It's an excellent platform for companies to reach potential employees." **B**

THE KEAT HONG BACK-TO-SCHOOL PROGRAMME HELPS STUDENTS FROM LOW-INCOME FAMILIES DEFRAY THE COSTS OF PREPARING FOR A NEW ACADEMIC YEAR.

**ON 19 DECEMBER 2021,** 70 students from 43 vulnerable families received timely relief in the form of book vouchers, goodie bags, printers and refurbished laptops through the Keat Hong Back-to-School Programme (BSP).

Started by the Keat Hong Citizens' Consultative Committee (CCC) Welfare Taskforce in 2020, the Keat Hong BSP aims to lessen the financial burden of vulnerable households. An annual book voucher distribution event is held at Keat Hong Community Club (CC), with eligible needy students from Primary One to Secondary Five receiving \$100 worth of vouchers each. These can be used to purchase books and stationery that the students need for the new school year.

Madam Lee Kim Tow, whose two school-going grandchildren were beneficiaries, said, "I'm so thankful for the Back-to-School programme. These vouchers really help lessen my burden for the new school year."

The joint effort by the NTU Alumni Council's Community Engagement Sub-Committee and M3@CCK — a partnership between MUIS, Mendaki and MESRA — also saw each of the underprivileged families receiving a refurbished laptop.

"Education is the most powerful tool for social mobility. The Back-to-School distribution is our way of helping Keat Hong families in their children's education, and we are here for them in these difficult times," said Keat Hong CCC Chairman, Dr Kwoh Chee Keong, PBM.

For Madam Rafe'ah Binte Abdul Karim, whose four grandchildren also received the book vouchers, Keat Hong BSP has made a big difference to her family. "Thank you so much Keat Hong CC and Adviser Zhulkarnain for organising this distribution. It has helped me so much with the rising living expenses of taking care of my seven grandchildren," she said.

In view of the higher cost of learning materials for secondary school children, the organising committee will be increasing the value of the book vouchers given to secondary school students, from \$100 to \$150 from this year onwards to help more needy families.
