

Community in Bloom Awards 2022

(Housing Estates)

Community in Bloom Programme

Since 2005, CIB has been the flagship programme to engage Singaporeans through gardening. It has been instrumental in building a strong community stewardship towards greening and environment.

Today, CIB is a network of more than 1,800 community gardens with more than 45,000 gardening volunteers across residential estates, schools and organisations

Community in Bloom Awards

The Community In Bloom (CIB) Awards recognise and reward gardening efforts of Singapore's gardening groups.

The Awards aim to motivate and encourage community gardeners to improve the standards of their gardens and to continue to enjoy gardening as a fun and healthy activity.
