## Supporting Our Children on PSLE Results Day

**Our children will be receiving their Primary School Leaving Examination (PSLE) results this week.**

**Our response and support will mean a lot to them. How can we continue to show care for our children?**

### Receiving PSLE Results

- \* Celebrate their efforts through praise and affirmation. Avoid comparisons or labelling what makes a 'good' or 'bad' score.
- \* Assure them that our love and care are not conditional — we will support them regardless of the results.
- \* Recognise our children for their journey and believe that they can grow through dedication and hard work.
- \* Emphasise that they are talented in their own ways and not measured by their academic achievements.

### Exploring Secondary School Options

- \* Choose secondary schools that are suitable for our children's strengths and interests.
- \* Ask our children to research on secondary schools. Empower them to find out what matters to them.
- \* Remember to use all 6 secondary school options with a range of cut-off points so that our children are more likely to get their school of choice.
- \* Engage them in the process. Understand their considerations — CCAs, school culture, subjects and location. Discuss and decide together.

### Let's Try

#### **Give an Affirmation Card**

Express our affirmation and love.  
You can use [these card templates](#) too.

#### **Reflect Together**

Encourage our children to write or draw how they feel, and invite them to share their feelings with us.

### Check out these useful websites/tools

#### **MOE S1 Posting Website**

Explore schools and learn how posting works

#### **MySkillsFuture**

Find out our children's strengths and interests to inform our collective decision.

#### **Full Subject-Based Banding (SBB) Microsite**

Learn more about secondary school life with Full SBB

#### **CNA Insider's 'A New School of Thought - Full SBB'**

Watch to find out more about teachers and students' experience of Full SBB so far

*It is important for us to convey to our children that we appreciate their gifts in their own respective ways. Our love and care for them are unconditional.  
We need to send this message to them throughout their lives.*

- Minister for Education, Mr Chan Chun Sing
