

Information for parents

In this brochure you can find information on how Ping Yi Secondary School supports its students with special needs.

For students with special needs, the transition period from a primary to a secondary school setting can be quite difficult.

We seek to support your child by providing guidance, specific skills, self-independence and support through training, teacher/peer support and specialized intervention sessions.

Parents are encouraged to contact the school's Allied Educator (Learning and Behavioral Support) to discuss further on how we can work together to provide the best possible support for your child.
