

Full Song Lyrics for "We are Shapes!"

To the tune of "Where is Thumbkin?"

What am I?

I have no sides
I have no sides
(Children to cross their arms in an "X" fashion)

What am I?

What am I?

(Shrugging action)

How many sides do I have?

Do I even have sides?

Watch me turn, all smooth and round!

Watch me turn, all smooth and round!

(Children all to spin in a circle)

I am a Circle

I am a Circle

(Children to raise arms above their head and make a circle)

I have three sides

I have three sides

(Children to show three fingers)

What am I?

What am I?

(Shrugging action)

I also have three corners

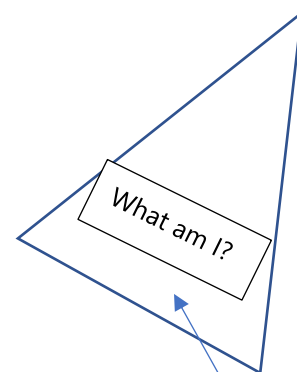

I also have three corners

(Children to show three fingers again)

I am a Triangle

I am a Triangle

(Children to raise arms above their head and make a triangle)

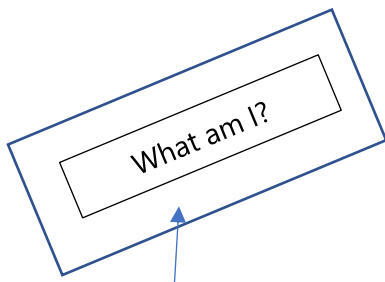

What am I?

How many sides
do I have?

Can you show
with your fingers?

I have four sides

How many sides
do I have?

Can you show
with your fingers?

I have four sides

(Children to show four fingers)

What am I?

What am I?

(Shrugging action)

My two lengths are equal

My two breadths are equal

(Points to self and then flashes "peace signs")

I am a Rectangle

I am a Rectangle

(Children to make a Rectangle with their fingers)

How many sides
do I have?

Can you show
with your fingers?
