

Living Areas

Single-Deck Beds, 10 Beds in a Room

To create a safer and more conducive environment for your workers to live in.

Toilets and Bathroom

5 Residents to share toilet and bathroom facilities

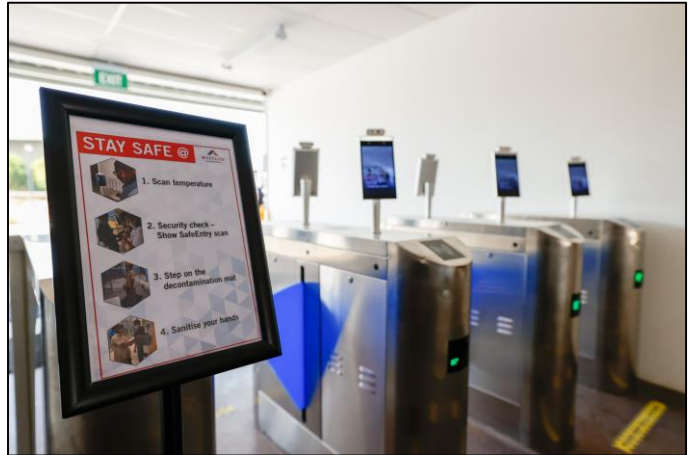

To create a safer environment by reducing resident inter-mixing.

Sick Bay and Isolation Facilities

Minimum of 15 sick bay beds per 1000 bed spaces

To ensure unwell workers have access to proper isolation facilities

Enhanced Screening

Facial Recognition at Entry and Exit

To allow dormitory operators to maintain more accurate nominal rolls.

In-Complex Amenities

Outdoor Courts and Minimarts

To provide workers with access to recreational facilities

Communal Facilities

Laundry Services and Dining Areas

Built within respective residential blocks, to reduce inter-mixing
